6a	Consider adoption of a resolution of the San Jacinto River Authority Board of	12/08/2022
	Directors adopting the Fifth Amendment to the San Jacinto River Authority Pension	
	Plan and related amendment to the Summary Plan Description (SPD).	

### **BACKGROUND INFORMATION**

The Board of Directors of the Authority established a defined benefit plan (the "Pension Plan") effective November 1, 1970 (As Amended and Restated Effective November 1, 2013). The plan provides retirement benefits to vested employees upon normal retirement at age 65 and in some cases early retirement at a minimum age of 55 with at least 10 qualifying years of service. The Pension Plan is only available to employees hired before August 1, 2016, with employees hired after that date eligible for a separate retirement benefit. The Pension Plan's overall goal is to pay benefits as described by the plan document in such a way that the cost and risk are manageable to the Authority. The specific changes to the proposed Fifth Amendment are outlined below and in the attached document.

**Reason for Amendment:** In recent years, the Authority has had a few employees pass away while they were still an active employee (or while they were retired but below retirement age), and in these circumstances, the plan reduces the surviving spouse's annuity benefit by 50%. Staff recommended, and the Personnel Committee agreed, that this should be changed so that the surviving spouse is not penalized. The monetary impact to the pension plan is de minimis.

**Recommendation 1**: Modify the Qualified Pre-retirement Survivor Annuity from 50% to 100% for active and former vested participants. Surviving spouse of an active vested or former vested participant who dies prior to retirement date would receive 100% of the value of a joint and survivor annuity based on the deceased participant's retirement benefit instead of 50%, determined at the participant's earliest retirement age.

**Recommendation 2**: Increase the Qualified Joint and Survivor Annuity to 100% as the default or normal election form for a married participant (unless they elect one of the other options).

**Recommendation 3**: Add the 50% joint and survivor annuity as an optional election form for a married participant (necessary because it would no longer be the default or normal election form.)

The Personnel Committee met on November 15, 2022, and recommended approval of the proposed amendments.

6b	Consider authorizing the General Manager to execute the Sixth Supplemental Agreement by and between the San Jacinto River Authority and Montgomery County Municipal Utility District No. 39, of Montgomery County, Texas.	

### **BACKGROUND INFORMATION**

The Authority and Montgomery County Municipal Utility District No. 39, of Montgomery County, Texas (the "Customer") entered into that certain "Contract for Financing, Construction and Operation of Regional Water Supply and Waste Disposal Facilities," dated as of October 25, 1999 (the "Contract"). The Contract provides a procedure for obtaining water supply and waste disposal facilities by the Authority to serve the needs of Customer by the acquisition, construction, improvement, enlargement, extension or repair of the Water Supply and Waste Disposal Systems.

Customer and the Authority have heretofore entered into a series of supplemental agreements and supplemental financing agreements to the Contract (the "Prior Agreements") for the purpose of supplementing and implementing the Contract to make specific provision for the reservations of, and acknowledgments of or arrangements for payments for, capacities in and to the Water Supply and Waste Disposal Systems to serve the needs of Customer. Pursuant to the Prior Agreements, the Authority has sold and assigned to Customer, and Customer has purchased, accepted, and made or arranged to make payment for, among other matters, reserved water supply, wastewater treatment and wastewater collection and transportation capacities in and to the Water Supply and Waste Disposal Systems.

Customers desires to reserve water supply capacity sufficient to serve an aggregate total of 2,239 single family residential equivalent connections and wastewater treatment, collection, and transportation capacity sufficient to serve an aggregate total of 2,409 single family residential equivalent connections. This is 300 single family residential equivalent connections greater than what the Customer currently has reserved.

The proposed Sixth Supplemental Agreement makes specific provisions for the purchase and provision of such additional capacities by the Customer in and to the Water Supply and Waste Disposal Systems. Pursuant to the Fifth Supplemental Agreement, the rate for such existing capacities is the rate specified in the Sixth and Final Accounting; and pursuant to the Sixth and Final Accounting, the rate for water supply capacity is \$1,827.57 per single family residential equivalent connection, and the rate for wastewater treatment, collection and transportation capacity is \$1,569.46 per single family residential equivalent connection. For the additional 300 connections, Customer will make a lump sum, cash payment to the Authority in the amount of \$1,019,109.00 (consisting of \$548,271.00 for water supply capacity and \$470,838.00 for wastewater treatment, collection, and transportation capacity) for the purchase of the additional capacities described above not later than January 31, 2023.

6c	Consider authorizing General Manager to execute an Amendment to Agreement by and between the San Jacinto River Authority and The Woodlands Land Development Company, L.P.	

### **BACKGROUND INFORMATION**

The Authority and The Woodlands Land Development Company, L.P. ("The Woodlands", as successor to The Woodlands Development Corporation) entered into that certain Agreement dated June 19, 1975 (the "Agreement"), providing for the Authority to own, operate and maintain a regional or centralized Water Supply System and Waste Disposal System to serve The Woodlands. The Agreement depicts and defines the Service Area of the Water Supply System and Waste Disposal System in Exhibit "A".

Montgomery County Municipal Utility District No. 39, of Montgomery County, Texas proposes to annex (a) a 126.83 acre tract of land, of which 41.70 acres is located outside of the Service Area (said 41.70 acres being referred to hereinafter as "Tract 1"), and (b) a 26.20 acre tract of land ("Tract 2"). The Woodlands proposes to development a 5.572 acre tract of land on FM 1488 ("Tract 3"). The Service Area described in the Agreement requires revision to include said Tract 1, Tract 2, and Tract 3 within the Service Area.

The proposed Amendment to Agreement will revise the Service Area set forth in the Agreement to include Tract 1, Tract 2, and Tract 3 within the Service Area of the Authority's Water Supply System and/or Waste Disposal System.
